Section Title

What this section covers

Headline that states the point

- First supporting point. One idea per line, written as a statement rather than a label.
- Second supporting point, long enough to show how a line wraps against the measure and keeps its leading.
- Third supporting point.

Three things side by side

Regulatory

Permits, licensing and the approvals pathway, mapped against the responsible ministry.

Commercial

Cost structure, who carries which cost, and where the commercial risk actually sits.

Delivery

Sequence, milestones and the decisions that have to be made before each one.
